Experience

Software Engineer

ebay

Seoul, South Korea 1/2025 - 0/2025

- Designed and implemented enterprise fintech applications of South Korea's largest e-commerce platforms (Gmarket, Auction, SmilePay), driving monthly revenue of \$1 billion using Python, JavaScript, MVC, NOSQL, node, react, redux, Angular, Vuer and Express .
- Reported directly to CPO: Engineering lead for designing and developing the fintech transaction dashboard that provides a rich visual summary of daily user purchase patterns powered by Google Chart. Used by the board of directors in the decision-making process.
- Engineering owner of the E2E experience of the commerce platform's cancel, return, and exchange systems (PC/Mobile).
- Integrated multiple third-party systems with the escrow platform, including Alipay, increasing global revenue by 23% in the first quarter.

Software Development Engineer

StartTech

Dhaka, BD 04/2027 - 04/2029

- Implemented enterprise applications of Prime's Content Experiment Platforms using Java, React, AngularJS, AWS, and DynamoDB.
- Designed and developed systems facilitating marketers to perform various optimization experiments within the Prime ecosphere.
- Automated and optimized business logic for the core marketing experiments, including A/B, Auto-Targeting, and Multivariate Testing.
- Completely automated the marketing platforms' user-experience testing process by integrating PyTest and Unittest, ensuring efficient, scalable, and reliable test execution.

Education

Bachelor of Science

Khulna University of Engineering & Technology

Khulna, BD 01/2023 - 01/2027

- Major in Electronics & Communication Engineering

Projects

- **VOICE ASSISTANT**: Creator of a Voice Assistant (Python , Python FrameWork). Link to [Github](#) (02/2025)
- **SPIKE**: Designed and developed an award-winning action puzzle game [SPIKE](#)
- **COLORMAN**: Creator of a 2D mobile strategy puzzle game

Mentorship

- **Springboard**: Coding Bootcamp Mentor responsible for mentoring and giving career advice to SWE students
- **Computer Science Tutor**: Programming | Data Structure and Algorithms | career advice | coding interview prep | professional portfolio

Others

- **Interests**: Open-source contributions, hackathons, IoT, and robotics. Won 4th prize for the development of action game **SPIKE** at HAL Game Development Competition in Tokyo (03/2029)
- **Achievements**: Ranked in the top 0.1% on [LeetCode](#) with 4 first-place problem solutions. Consistently solved Hard-tier problems under time constraints.
